

Newton Free Library

Date: June 14, 2005

330 Homer Street

Job #: 04.75B.9 of 17

Object: record book

Title/Subject/Bibliographic or Other Significance: Female
Benevolent Society. Club Records. Volume 5.

CONDITION ON RECEIPT: The quarter leather and decorated paper stationery case binding was worn and abraded, particularly at the corners, edges, and endcaps. A pressure-sensitive call number tag was adhered to the front cover. The internal hinges were broken, and one loose flyleaf was attached with pressure-sensitive tape. The text block consisted of ruled pages with entries in graphite, colored pencil, and manuscript ink. A few pages at the end of the volume were blank. The pages were in relatively sound condition even though they were dirty. A few leaves were broken or partially broken at the folds. A security strip was adhered between two leaves. An inked-over barcode was adhered to the front flyleaf. The adjacent page was stained by the ink.

TREATMENT REPORT: The volume was microfilmed. Treatment was documented with color slides. The pH was recorded before and after treatment: before, 4.5, after 7.0. The volume was collated and disbound. The head, tail, and pages were dry cleaned where necessary. The pages were nonaqueously alkalized (deacidified) with a suspension of magnesium oxide particles in a perfluoro compound (Bookkeeper). Tears were mended and folds guarded where necessary with Japanese kozo paper and wheat starch paste. The pressure-sensitive tape, call number tag, barcode, and security strip were removed mechanically, and residual adhesive stains were reduced with acetone. The volume was sewn on linen tapes with linen thread. The binding was repaired by rebacking using Japanese paper colored with acrylic pigment. The volume was housed in a phase box.
